## **BRIEF NOTE OF MUGOMBWA TECHNICAL SECONDARY SCHOOL**

Mugombwa Technical Secondary School is a technical institution that provides technical and practical education to students from both the refugees and host communities. The school has a total of 476 students, among whom 347 are refugees, while the remaining students come from the host community. Among those refugee students, **178 are girls** and **169 are boys**. This diverse student population promotes inclusion, unity, and equal access to education.

The school offers three main trades: Fashion Design, Electrical Technology, and Building Construction. These programs equip learners with practical skills and hands-on skills that prepare them for employment and self-reliance. The total number of students who have graduated from those trades since the school started is 160.

### **Success stories**

The total number of students who have graduated from trades of Fashion Design, Electrical Technology, and Building Construction since the school started is 160. **Some of them are currently studying in different universities and two of them got scholarships abroad especially in Burkina Faso in partnership with Mastercard foundation and 2iE**. The number of short-course students who have completed their studies is 525. Females are 367 and Male are 156. Moreover, many of them have started working independently, and others are now employed by different companies. Mugombwa Technical Secondary School has a production unit where students during practice make products that are sold. Through its technical training, Mugombwa Technical Secondary School plays an important role in empowering youth and supporting community development.
